

Temperature Channel Cable Kit / Instrumentation

Type K Thermocouples, fittings and low and high temperature ferrules

The Temperature Channel Cable Kit compliments Dyne Systems' DynPro₂ Data Acquisition and Control System. Each kit connects up to 16 temperature channels. Cable, Type K Thermocouples, fittings and low and high temperature ferrules are included in each kit. Cable lengths are available in 15, 25 and 50 ft (4.57, 7.62 and 15.4 meters) lengths.

Everything you need to succeed
